

THIVIYANATH MAHESWARAN

SOFTWARE ENGINEERING INTERN CANDIDATE

Kalubowila Colombo | thiviyath15@gmail.com | +94 077-064-9966 | thiviyath.github.io/thivi.dev/

PROFESSIONAL SUMMARY

Software Engineering undergraduate with hands-on experience in full-stack development, enterprise applications, AI-powered solutions, and database-driven systems. Skilled in React, Spring Boot, Node.js, PostgreSQL, MongoDB, RESTful APIs, and software engineering principles including OOP, SDLC, and Agile methodologies.

EDUCATION

BSc (Hons) Software Engineering – Reading (July 2024 - Sep 2027)
SLIIT City Uni (University of Bedfordshire)

Software Engineering Foundation Studies (Sep 2023- Dec 2023)
Informatics Institute of Technology (IIT)

WORK EXPERIENCE

Software Engineering Project Experience | Personal & Academic Projects (Jan 2026)

Developed scalable web and AI-powered applications using React, Next.js, Spring Boot, Node.js, PostgreSQL, MongoDB, and OpenAI APIs while applying RESTful architecture, OOP, Agile practices, SDLC, Git, and database design principles.

KEY PROJECTS

Enterprise Task Management Platform (Spring Boot, React, PostgreSQL) (Jan 2026)

Developed a workflow management platform with JWT authentication, RESTful APIs, role-based access control, dashboard analytics, and relational database design using Spring Boot and React.

AI Smart Document Assistant (Python, LangChain, OpenAI API, Vector Database) (Sep 2025)

Built a RAG-based AI assistant for semantic search, document retrieval, and contextual question answering using OpenAI and vector databases.

Ambience Studio Management System (React, Node.js, Express.js, MongoDB) (Aug 2025)

Developed a full-stack studio management system with authentication, booking workflows, customer management, and REST API integration.

NeuroTouch AI – Gesture Controlled System (Python, OpenCV, MediaPipe, PyQt5) (Aug 2025)

Developed an AI-powered gesture control application with real-time hand tracking, virtual mouse control, and presentation automation.

TECHNICAL PROJECT EXPERIENCE

Customer Support Ticketing System (Java, Spring Boot, PostgreSQL)

(Sep 2024)

Developed a ticket management system for issue tracking, support workflows, and status monitoring. Implemented REST APIs, authentication, database integration, and role-based access management using Spring Boot and PostgreSQL.

Business ERP System (Odoo ERP, PostgreSQL)

(May 2025)

Designed and developed an ERP solution for inventory management, sales tracking, invoicing, customer management, and business reporting. Implemented workflow automation, database integration, CRUD functionality, and dashboard analytics using Odoo ERP and PostgreSQL.

TECHNICAL SKILLS

- Programming Languages: **Java, JavaScript, TypeScript, Python, C++, SQL**
- Frontend Technologies: **React.js, Next.js, HTML5, CSS3, Bootstrap**
- Backend Technologies: **Spring Boot, Node.js, Express.js, RESTful APIs, Spring Framework**
- Databases: **PostgreSQL, MongoDB, MySQL**

PROFESSIONAL ACTIVITIES & CERTIFICATIONS

- IBM Data Analyst Professional Certificate
- Google Data Analytics Professional Certificate (In Progress)
- IEEE Xtreme Programming Competition Participant
- IEEE Electroverse Robotics (RAS) Workshop Volunteer

TECHNICAL COMPETENCIES

OOP & Design Patterns | Data Structures & Algorithms | SDLC & Agile Methodologies | REST API Design | Database Design | Software Testing | Spring Boot Development | Git Version Control | Cloud Computing Fundamentals | Prompt Engineering & RAG
